1. We have examined reference with interest and feel that it represents progress in the right direction. After the shocks and changes of recent months it looks as though we have a basis on which to build. Under different circumstances it will be argued that the employee termination and related work-out costs should be borne by the project but we agree that in the present instance they should come from elsewhere. We are terminating these employees in order to streamline the project and make it an effective propaganda mechanism, capable of operating on a lower budget. We feel that this reduced budget ought to be utilized for propaganda production and necessary overhead costs rather than for payment for management.

2. We feel sure that you are doing what you can to prod LCCASSOCK-1 into completing his Rahmen plan proposal as soon as possible. Even after this is submitted a certain amount of time will be taken up by the necessary study and commentary by COS and Headquarters. Before we will be in a position to resume discussions with L. H. H. we advise that the latter will go on extended leave beginning 11 July. We consider it necessary to have more intensive discussions with him prior to that date. It would therefore seem necessary that all internal co-ordination and approval of the basic operational proposal be accomplished by the end of June.

3. We also hope that Bonn can keep advised of LCCASSOCK-1's dealings with CAMASH on Schlaenger.
